Decisions of the Party's Central Committee session held on 28 November 1950, (1) for the purpose of avoiding the dangers of the opportunists, (2) to confirm and support the decisions of the second Supporters' Conference held in Warsaw and our situation in respect to peace and the increasing dangers of war.

The nations of the world are facing a very big and fearful catastrophe of a 3d world war. The Imperialists have now turned from the preparations of war to the aggressive stage. Thus all the nations of the world and our nation as well is faced with all the catastrophes this war might bring to our nation. For this reason, all the nations are working under the leadership of the Soviet Union. The proposals of the war-mongers will be faced by the free and peace-loving nations.

We are now seeing the free nations trying to get rid of Imperialism by sacrificing the blood of youths and men. These nations are supported by the fortress of liberty, the Soviet Union, and the oppressed nations are liberating themselves from the Imperialist yoke.

The traitorous ruling group in our country is the enemy of our nation, as it is trying to join our nation with the treaties of slavery and the aggression of the Imperialists. They offered our country to the Imperialists for the establishment of military and air bases.

The Iraqi traitor government is not benefiting from the funds borrowed from foreign countries to revive and stimulate the economic situation. No, but for the purpose of armament to the detriment of our poor nation. This group has tried to put into force all types of terrorism and has established herself as an open dictatorship.

Thousands of struggling men were put in the prisons and the concentration camps. Among them were Communists, democrats, Trade Unionists, who are suffering various torments on the Fascist method. The problems of our nation have reached their climax. These problems include economical, political, social, educational, and health dilemmas. The economical situation has been and is still deteriorating. We should, by ourselves, realise the liberty of our home and its independence. Our Party believes that the Red Army will not interfere in foreign affairs, and unless the Soviet Union is assaulted, the Red Army will only maintain the peace.

Our situation towards the Red Army is the same as that of any other Communist Party. Our Party expresses the certainty of victory on the part of the nation's camp against the Foreign Imperialists and their local traitorous supporters.

Our Party would like to ascertain that the object of our nation is the very object of other national parties and committees. It is also confirmed that unless a close cooperation is established between the Communist and the nationals, our country cannot be liberated. It is intended to build up a

~~CONFIDENTIAL~~ - 2 - ~~U.S. OFFICIALS ONLY~~

25X1A

free democratic and independent home. Our targets do not coincide with those of the Imperialist servants and the traitors.

Our Party therefore is inviting all the nationals and other committees to form a unified national front to fight the traitors and the reactionists. Our Party does not want that other parties embrace our ideals but only to cooperate in requesting the legal rights of the workmen, farmers, students, educated people, women traders, small merchants, and all people who sincerely work for the interest of our home.

Head of the Iraq representatives discloses the Fascist terrorism and the atrocities of Sa'id's government in Iraq.

The second Peace Supporters' Conference has concluded its meeting in Warsaw after studying reports and suggestions. It has made the historical decision which has revived faith in the hearts of new millions of the simple people to struggle for peace.

These decisions were approved by all the Peace Supporters because they expressed the support of peace by the nations. The Iraqi nation supports warmly the struggle of the Egyptian nation for its emancipation from Imperialism.

The English-American competition in Egypt reveals itself sometimes in the clash between the gangs of the Moslem Brotherhood (Ikhwan Al Muslimin) and the American brokers, and another time between the hired press and the big parliamentary officials. The Imperialists and customers are in agreement in working against the Egyptian nation. The aim of the Imperialists and their customers is to draw the Egyptian nation into the aggressive Atlantic Pact as Egypt is of vital strategic importance to the proposed war.

Join hands and unite, oh, our nation, to bring down the As-Sa'id traitor government, the government of starvation, jails, gallows, terrorism, and conspiracies, to impose treaties of slavery on our nation. Renew the January movement. Let us smash the Portsmouth criminal gang and Clyton assembly.

Notification of the Iraqi Communist Party to the Struggling Iraqi Nation

Not more than one year and eleven months have passed since the liberation movement of January 1948 took place, when we see that another type of Portsmouth conspiracy is being arranged to handcuff our nation and draw it into an aggressive war. Since the Imperialist Palestinian War, the martial laws were imposed, and the ~~Approved For Release 2001/09/06 : CIA-RDP83-00415R007400070~~ were installed in the Baghdad Squares, and the free leaders were taken to dark cellars.

- 3 - OFFICIALS

This was done to rob our nation of the victories we had gained. This was done for the purpose of imposing a new Portsmouth Treaty. Nuri As-Sa'id declared that he wished to modify the 1930 Treaty, which our nation intended to realise its ultimate cancellation.

Nuri As-Sa'id is intending to handcuff the Iraqi nation with a treaty of slavery for the coming quarter of a century. We are sure that the Iraqi and the British nations are not in agreement with such a treaty, but it is made and held between the gang of Nuri As-Sa'id. His gang and the spies of the English on one side, and the English warmongers on the other side.

Nuri As-Sa'id, the Human Butcher and the hero of terrorism, is not intending to liberate our country and nation, but is following the policy of starvation, terrorism, and dictatorship in response to his Imperialist lords.

We have but two ways before us, either we rise and smash the dictatorship which recognizes no mercy or conscience and is criminal, or we submit to a long slavery.

Long live the United National Front! Long live the Arab-Kurdish Brotherhood! Long live Iraq, free, democratic, and independent! Down with the warmongers and the Nuri As-Sa'id government, the government of terrorism, conspiracies, and starvation.

 Message from I.P.C. Laborers

1. Sons of the Company's servants of the English began to collect a tax from the junior employees and laborers, under the name of "contribution". This contribution was between 150 fils and 500 fils by which it was intended to buy a precious present for Mr. Grine who is one of the heroes who played an important role in Gawer Baghi (Kirkuk), a well known massacre there.
2. The Company dispensed with the services of a large number of telephone operators after several years service, claiming that an automatic telephone apparatus had been installed.
3. The laborer, Filiba Israel, has been three years in the Company's service. He had never been absent from his work during this period, neither was he late during the working hours. For the first time and for compulsory reasons, he was absent. The Company did not bring this to his notice, neither did it fine him in deducting his wages, but his services were dispensed with.
4. The Company is trying to put the sweepers under the contract for Release 2001/09/06 : CIA-RDP83-00415R00740007 of this action is to reduce their payment to the same scale of those

of the Municipality Sweepers or between ID 5/000 and ID 7/000.

5. The laborer Ibrahim went to the lavatory, the foreman Keobi called him and struck him saying, "Bloody fool, is this the time for you to go to the lavatory?" The laborer Ibrahim gave no reply to this assault being afraid of dismissal.

The young laborer (Rahim) working at 100 fils per day, went to the lavatory without the said permission as a result of which the clerk, Khalil, called him and struck him and then discharged him from work saying to him, "How can you go to the lavatory without permission?"

These are but examples of what happens daily. We are therefore called upon to struggle for your legitimate rights to save ourselves from this cruel treatment. The only way to do that is through the regular Revolutionary struggle.

Who is responsible?

One year and several months ago the Ahrar (the liberal) and the National Democratic Parties suspended their activities. The latter resumed its activity a few months ago, but the Ahrar Party did not. The people have the right to inquire about this. Why did the Ahrar not resume its activities?

The reason is that Imperialism and reactionism try to paralyze national organisation activities. It is also the reason why the National Democratic Party changed its national ideals from those of democratic Socialism, which are those of the present British Labor Party and the French Social Party who now have become the most loyal supporters of the warmongers of the atomistic English and Americans.
